

MASTERING CONCEPTS BUILDING COMPETENCY

EDIZE LEARNING SOLUTION
REVOLUTIONIZING EDUCATION

INNOVATE • EDUCATE • INSPIRE

ABOUT US

Edize EdTech Pvt Ltd was established by a dedicated group of academicians with a shared vision: to empower the next generation of students. Leveraging the power of technology, we are committed to delivering a **360-degree educational experience** that is **accessible and affordable** for students across the globe. Our mission is to ensure that quality education reaches every student, no matter where they are, helping them develop the **competence** they need to succeed in an ever-evolving world.

Vision

Empowering the future leaders through transformative learning solutions

Mission

To provide accessible, innovative digital educational solutions that inspire curiosity, enhance academic performance, and nurture lifelong learners

WHY COMPETENCY DEVELOPMENT IS ESSENTIAL?

01

Competitive skill development at **an early stage** is essential for gaining **scholarships** and securing **entry to reputed institutes**, and being placed in a **suitable career**.

02

From **2022 onwards**, to gain admission to **central universities**, **CUET** has become mandatory. As a result, every student must face **competitive exams** for higher studies

03

Edize Learning Solution empowers institutes, trains teachers, and prepares students to excel in all kinds of competitive exams through its innovative **hybrid program**, utilizing the latest **digital technology** powered by **AI tools**.

04

NEP 2020 Emphasizes competency based education as a crucial aspect of the school education system

Program Feature

1

Live classes from experienced faculty and support from Edize Learning Mentor cover **Maths and Science** through both **live and recorded sessions**

2

Edize Learning Station: An AI-based learning room set up in schools for students to attend classes and to interact with experts

3

AI-powered Edize Learning App:

A platform to watch learning videos, clear doubts and access question banks for unlimited practice for students.

4

Printed Study Materials for all students aligned to competency exams in India.

5

Beyond the Curriculum: Programs like **Communicative English** and **Career Guidance** through live coaching

6

Live and Interactive Celebrity Talk Show for Students - **Edize Master Talks.**

How Edize Learning Station Works ?

Installation and Setup

The Edize team installs the Learning Station equipment at your school.

Mentor Onboarding and Training

The Edize Learning Mentor is trained to operate the equipment, manage courses, and student batches.

Student Registration

Students receive individual login credentials for personalized learning profiles.

Custom Timetable Integration

Edize learning slots are integrated into the school's timetable for seamless alignment.

Access to Video Biscuits

Registered students get access to hundreds of concept videos across all subjects.

Interactive and Live Lessons & Activities

Engaging live lessons with multimedia content, quizzes, and assignments.

Real-Time Progress Monitoring

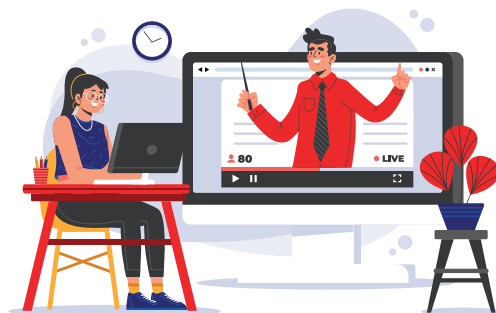

Teachers and parents can track student performance with real-time reports.

Seamless Learning

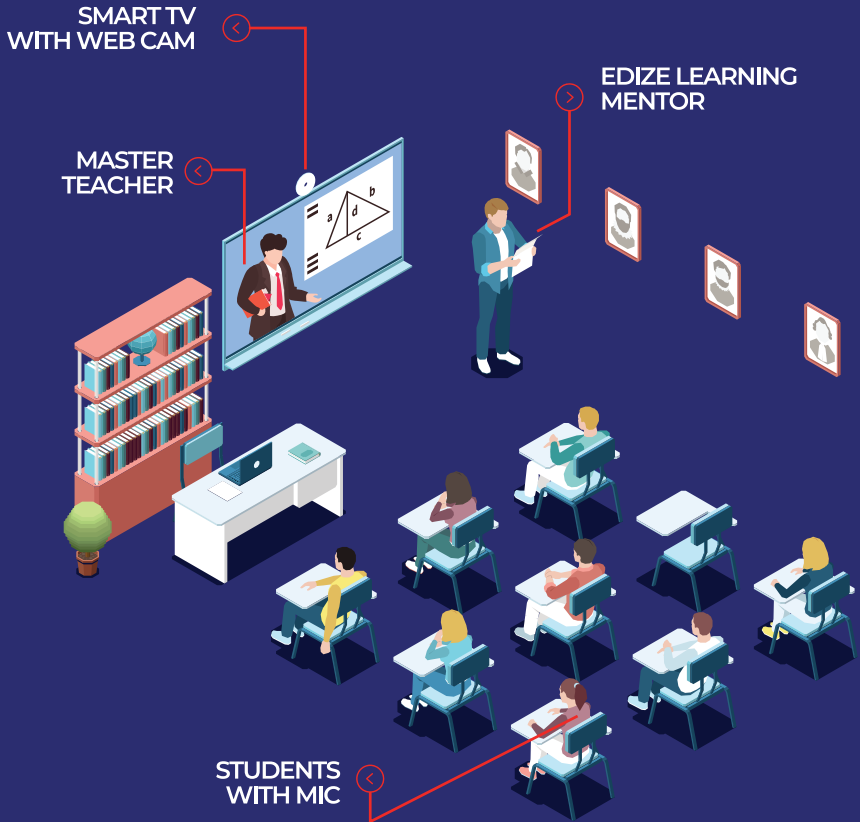

Students access the platform from anywhere for assignments and continuous learning.

Mentoring Support and Updates

Continuous support from the Edize Mentor, with regular updates to teachers and the principal.

FOUNDATION HYBRID PROGRAM

• TWO TEACHER HYBRID CLASSROOM •
